**Re: MB Docket No. 03-15  
KRCA, Riverside, CA (Facility Id. # 22161)  
Request for Waiver of Replication/Maximization Interference  
Protection Deadline**

---

Dear Ms. Dortch:

On behalf of KRCA License, Corp., the permittee of digital television ("DTV") station KRCA, Riverside, California (Facility Id. #22161), we hereby request a waiver of the July 1, 2006 replication/maximization interference protection deadline applicable to this station. *See Second Periodic Review of the Commission's Rules and Regulations Concerning the Transition to Digital Television*, MB Docket No. 03-15, FCC 04-192, ¶ 78 (rel. Sept. 7, 2004) ("*Second Periodic Review*"). This request is being filed electronically through ECFS pursuant to the FCC's public notice regarding requests for waiver of the deadline. *See Public Notice, DTV Channel Election Issues – Compliance with the July 1, 2006 Replication/Maximization Interference Protection Deadline; Stations Seeking Extension of the Deadline*, DA 06-1255 (rel. June 14, 2006).

KRCA currently operates on out-of-core NTSC channel 62 and out-of-core DTV channel 68. KRCA requested DTV channel 35 in the third round of the DTV channel election process, but has not yet received a tentative channel designation. As a station with two out-of-core channels, it is nevertheless clear that it will operate post transition on a channel other than its assigned digital channel. Therefore, it is required to be operating with DTV facilities that serve at least 80 percent of the population served by its 1997 NTSC facility and to have filed a license application for such facilities by July 1, 2006. As explained below, KRCA currently provides the required 80 percent service. However, it has requested

Federal Communications Commission

July 3, 2006

Page 2

modification of those facilities, that application remains pending, and therefore it is not able to meet the deadline for filing a license application.

The KRCA maximized CP specifies an ERP of 1000 kW and an antenna height above average terrain ("HAAT") of 907 meters. KRCA is currently operating with an ERP of 574 kW at a HAAT of 907 meters pursuant to special temporary authority ("STA").<sup>1</sup> See FCC File No. BDSTA-20021028ACB, as extended. The KRCA STA facility complies with the 80 percent coverage requirement.

On June 16, 2006, KRCA filed an application for modification of its DTV CP to reduce ERP to 500 kW. See FCC File No. BMPCDT-20060616ACF. As set forth in the engineering portion of the application, the proposed 500 kW Channel 68 facility would serve 116.6 percent of the target baseline service population, which satisfies the 80 percent population match requirement of the DTV channel election process. That application remains pending. Upon grant of the application, KRCA will reduce power to 500 kW and file a license application to cover the CP.

Accordingly, KRCA respectfully requests that the Commission grant a brief waiver of the interference protection deadline for KRCA pending grant of BMPCDT-20060616ACF and submission of the Form 302 for license.

If there are any questions concerning this matter, please contact the undersigned.

Sincerely,

Marnie K. Sarver

Re: KRCA License Corp.  
KRCA-DT, Riverside, CA  
Request for Extension of Reduced Facilities STA

Gentlemen/Ladies:

KRCA License Corp. ("KRCA"), is the licensee of Station KRCA-DT, Riverside, California. KRCA-DT is operating with reduced facilities pursuant to Special Temporary Authority granted November 5, 2002 (BDSTA-20021028ACB), as extended. The STA will expire on March 15, 2006. KRCA wishes to continue operating the facilities authorized in the STA. Accordingly, on its behalf we hereby respectfully request extension of the STA through July 1, 2006, the date by which the station is required to complete construction of full power facilities pursuant to the Commission's "use-it-or-lose-it" policy.

The licensee has authorized undersigned counsel to certify on its behalf that neither KRCA nor any party to this request is subject to denial of Federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C § 853a.

Enclosed are FCC Form 159 and a check payable to the FCC for \$150.00 in payment of the prescribed filing fee (Payment Type Code MGT).
